

SmartCompliance

WHAT'S SMART COMPLIANCE?

SmartCompliance is the future of document and workflow management for corporate risk management and insurance organizations. Through a seamless and secure online application, our clients leverage their ability to efficiently manage vast amounts of data.

SmartCompliance manages compliance and administration in the following areas while you focus on your core business:

CONTINUING EDUCATION

LICENSES

INSURANCE POLICIES

CERTIFICATES OF INSURANCE

CONTRACTS

IMMEDIATE BENEFITS:

- No capital investment
- Eliminate storage space requirements by going paperless
- SAS70 compliant audit log provides instant accountability
- Reduce administration and personnel costs
- Assign multiple levels of authorized access to users
- Data and documents available online - anytime, anywhere

Modules

LICENSES

Store, track, and maintain all policies, certificates and contracts for improved risk management

- Verify compliance to contractual requirements
- Track Certificate of Insurance (COI) status
- Issue notifications of COI status, upcoming renewal or expiration and transmit by email, fax or telephone
- Link contracts, insurance policies and COI to appropriate corporate hierarchy
- Proactive subrogation management capabilities
- Issue COI directly from captured policy information

CONTINUING EDUCATION

Compile course and credit history in accordance with appropriate regulatory requirements

- Link credits to specific license types, sub types, or specific states
- Issue notifications of remaining CEU credits required
- Enter course credits for multiple attendees simultaneously
- Link CEU module with Licenses module for integrated employee credentials management

POLICIES & CONTRACTS

Manage key license information, data, and images for compliance and timely renewal

- Compile responses and reports easily, locating document images upon request
- Receive renewal notifications in customized time increments
- Client controlled admin features let the client specify their needs
